Pet Puppy Agreement

For Puppy: _____ Mother: _____

DOB: _____

Litter Theme: _____ Tattoo #: _____

Registered Name: _____

Call Name: _____

Registered #: _____

Because of all the genetic and environmental factors involved, we cannot guarantee that your puppy will be without hereditary defects. However we have done our best to avoid passing on any undesirable traits by having both parents who have been tested and are free, as far as it is possible to determine, undesirable genetic characteristics.

With this said, if a puppy should develop any hereditary characteristics, such as hip dysplasia, elbow dysplasia, hereditary heart or eye conditions, before the age of 26 months, that will affect the puppy's life, or physical abilities, we will replace the puppy as soon as it is possible. If a problem should arise, we require that you take your pup to a board certified technician for a diagnosis. If it is found the puppy does indeed have a life altering genetic disorder - a 2nd opinion is required for final diagnosis. The 2nd opinion board Certified Vet must either

be chosen by the breeder - or approved by the breeder PRIOR to taking the puppy in. This guarantee does not cover any conditions that are not symptomatic and do not affect the dog. To ascertain that your puppy is free from disease or physical defects, it should be taken to your veterinarian for examination within 5 days of leaving our premises. If the dog is found to not be of good health and physical development, it may be returned to the breeder at that time for a complete refund or a substitute puppy.

This guarantee will apply only if the below conditions have been met, if the dog has not been bred, and upon certified evidence from a qualified veterinarian that the dog has been spayed, or neutered.

Provided the below conditions are met, puppy would remain the property of the purchaser. Puppy does not have to be returned, even if replacement is given.

The buyer(s) agrees to the following conditions:

1. We understand that the puppy is sold to us in the good faith *that it will NOT be bred*. Which means you must get your pup spayed/neutered at the appropriate age (males not less than 1 yr - females not less than 10 months). **Registration papers will not be delivered to you, the new owner, until proof of spay or neuter is provided.**
2. We acknowledge that the puppy being sold to us is a pet only and that the deposit (\$300) is nonrefundable.
3. The puppy is to be provided with adequate socialization, shelter, and housing.
4. The puppy is not to be tied in any manner or allowed to roam free.
5. The puppy is to be fed a premium quality food that contains no BHA, BHT, Ethoxyquin, food colorant, gluten meals, or **By-Products**. Vet recommended Science Diet, as well as grocery store brands (like Iams, Purina, Pedigree, etc), all have By-products and gluten meals!! *By-products are cheap sources of meat - usually consisting of tumors/beaks/feet/brains/rendered meat etc. Gluten meals, coming from cheap sources in China, are the cause (in most cases) for the pet food recalls.*
6. The puppy is to be maintained at a weight appropriate to its size and age.
7. The puppy is to be provided with adequate and correct exercise and good grooming care.
8. The puppy is not allowed to jump up or down from places higher than its shoulder, or made to jog/run unnaturally (as in running next to a bike) up until 2 years of age. These conditions have been shown to bring about joint damage to puppies still growing, when their tender joints are most susceptible.
9. The puppy is to receive proper veterinary care and a proper vaccination schedule for the duration of its life.

- 10. The dog is not to be sold to any foreign country.
- 11. The dog must not be sold (or given) to another party without prior notification and agreement of the breeder. Breeder must approve of new home **BEFORE** puppy is rehomed. Which means a questionnaire/contract and phone interview of potential new family.

The guarantee becomes null and void, if breeder is not properly notified or has not approved of new home BEFORE puppy is re-homed.

- 12. The breeder reserves the first right of refusal if the purchaser(s) is (are), for any reason, unable to keep this puppy.
- 13. If the buyer is at any time unable to keep said puppy/dog, the breeder will gladly assist with re-homing.
- 14. All costs to return the puppy/dog to the breeder will be assumed by the owner.

I / We understand and agree fully to the above conditions.
